

Alumni Profile: Ollee Greening

School Years | 2016 - 2020

Current Course/Work | I am in my 3rd year at Landmarks College and I am currently completing a Life Long Learning qualification. I am also completing voluntary work to build up my CV at Wardman's Machinery in Tansley, Bolehill Farm in Wingerworth and at Swanwick School and Sports College.

What do you do in your course/work?

At Landmarks my qualification involves mowing, fencing, looking after the animals and cultivating vegetables. Through my voluntary work I have various roles and responsibilities. At Bolehill Farm I am responsible for looking after the animals, completing feed rounds, bailing and driving the tractor. At Wardman's Machinery I clean traded-in farm equipment ready to then resell. At Swanwick School and Sports College I am responsible for the up keep of the buses, helping pupils in horticulture lessons and completing general grounds keeping tasks.

What did you do after SSSC?

I went onto Landmarks college in Eckington and have so far finished two courses. The first one was a qualification in Horticulture and the second one was in Farming.

What advice would you give our current students?

Keep trying and don't give up. Find what you enjoy and do all you can to get there. Volunteering helps you to build up your skills and confidence – it also opens doors for the future!
